

" Farmington Public Schools provides a list of private music tutors to assist parents in selecting a qualified musician for their student(s). The District only represents that the musician is qualified to teach music as noted on the list. The District makes no other representation about the tutor. In addition, the tutoring provided does not constitute a District program, nor is it associated with the District's music curriculum. The selection of a music tutor lies solely with the parents/guardian of the student(s). "
